IMPORTANT NOTICE

When constructing new shade ranges of any article, it is virtually impossible to find perfect replication on every shade contained within those ranges.

Variation from the original will always be slight if at all, and will only affect a limited number of colours. Our shade match will continue to be made against the original standard. Nevertheless, we strongly recommend, that where exactness is imperative, checks are made before cutting or shipping.

Remember: once goods are cut they cease to be our responsibility.
